

Electronic Components Tracking System

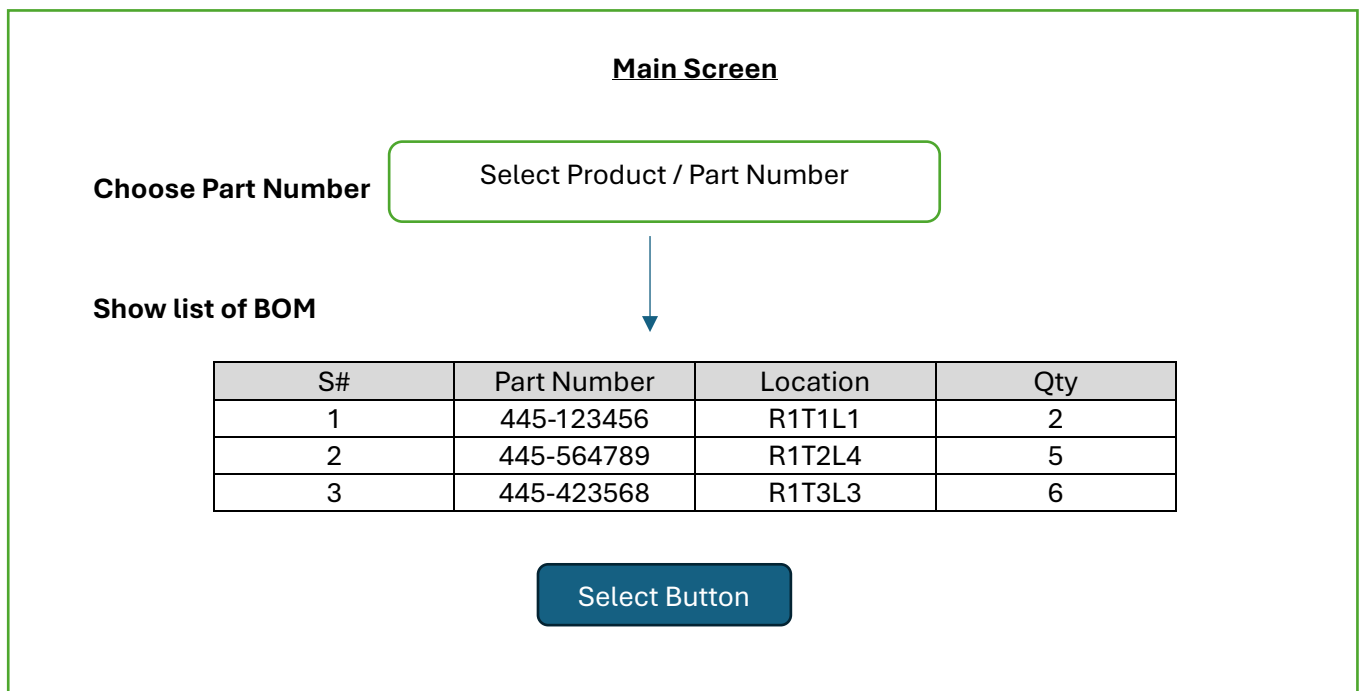

1. Excel file Stock Detail and Product BOM upload using a software Tool to server.

2. Login Screen

The login screen is enclosed in a green rectangular border. It features three vertically stacked elements: a rounded rectangular input field labeled 'Username', another rounded rectangular input field labeled 'Password', and a dark blue rounded rectangular button labeled 'Login'.

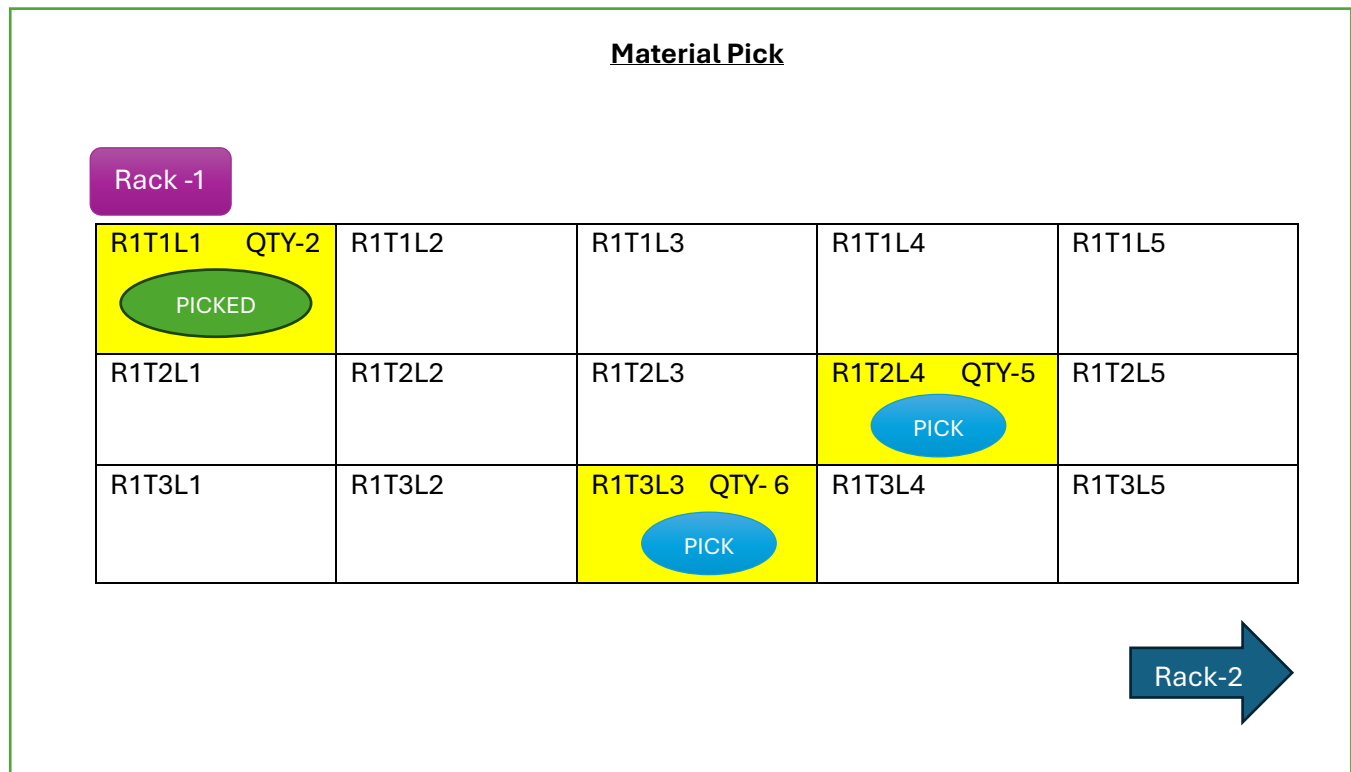

3. Main Screen to select Product Part Number Which will show List of BOM of the Product Parent Part Number. On click of **“Select”** button navigate to Material pick screen.

The main screen is enclosed in a green rectangular border. At the top center, the text **Main Screen** is displayed. Below this, on the left, is the label **Choose Part Number**. To its right is a rounded rectangular input field containing the text 'Select Product / Part Number'. A blue arrow points downwards from the input field to a table. To the left of the table is the label **Show list of BOM**. The table has four columns: 'S#', 'Part Number', 'Location', and 'Qty'. It contains three rows of data. Below the table is a dark blue rounded rectangular button labeled 'Select Button'.

S#	Part Number	Location	Qty
1	445-123456	R1T1L1	2
2	445-564789	R1T2L4	5
3	445-423568	R1T3L3	6

4. Shows Rack view in the screen with Part Number, Location, Qty to pick and Blue Button “PICK” to be clicked after material is picked from that location after clicking the color will be changed to green and text to “PICKED”. After Rack-1 is finished move on to Rack-2 , follow this steps until all Rack is picked.

5. After all Rack materials picked, click Button “**Transact**”, which will minus the store stock qty with picked qty, and all report excel and PDF can be downloaded.
